HOTlink Widening and structure replacement project

The I-15 widening and bridge replacement will mitigate traffic congestion and improve roadway safety for motorists traveling between Davis and Salt Lake Counties.

This project will expand I-15 from three to four continuous lanes in each direction from 500 North to north of the I-215 overpass. A High Occupancy Toll (HOT) lane will extend throughout the project corridor. Three structures will also be replaced: the Beck Street, SR-89, and 1100 North bridges. Construction of this project will begin after the Legacy Highway opens.

For additional questions, Please contact Marty Asay at 800 292-3557.

Current identified budget: \$125 million

Legislative Districts:

Senate: 1
House: 23, 24, 26
